**Client**

Sky City Entertainment & Nic Watt

**Value of Project**

\$5,000,000.00

**Project team**

Gordon Moller, Joyce Dobbs, Terry St George in association with YWS Architects.

**Project Description**

Huami is a new Chinese Restaurant on Federal Street a part of the Sky City complex. The project comprises of a new restaurant and bar located adjacent to the main entry of Sky City and accessed off Federal Street with an additional entry off the atrium.

The restaurant comprises of a bar and restaurant with a Private Dining Room available. The restaurant features a spectacular open kitchen complete with a traditional Peking Duck Oven and Drying Room. The Drying Room is visible from the restaurant through an insulated glass wall.

Complementary seating and tables were specifically designed or selected to provide a relaxing yet refined and highly sophisticated environment.

This project was done in conjunction with YWS Architects
